Google Web Designer gives you the power to design and implement engaging creative content. Use animation and interactive elements to bring your creative vision to life in a wide array of formats that seamlessly integrates

with other Google products.

After completing this intermediate learning path, you'll be able to:

Learn about the different components, including 3D, in Google Web Designer and how to leverage them to support your creative design process.
Create and implement responsive creatives in Google Web Designer.
Create and configure interactivity and implement a variety of engaging animations, including 3D, in Google Web Designer.
